## **Independent Auditor's Report**

Board of Trustees Kansas City Public Library Kansas City, Missouri

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Kansas City Public Library (the Library), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Trustees Kansas City Public Library Page 2

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Kansas City Public Library as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison and pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Library's basic financial statements. The accompanying supplementary information and other information, including the combining fund financial statements, budgetary schedules and statistical section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund financial statements and budgetary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Board of Trustees Kansas City Public Library Page 3

The statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2017, on our consideration of the Library's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Library's internal control over financial reporting and compliance.

Kansas City, Missouri October 31, 2017

# Management's Discussion and Analysis June 30, 2017

As management of the Kansas City Public Library (the "Library"), we offer readers of the Library's financial statements with this narrative overview and analysis of the financial activities of the Kansas City Public Library for the fiscal year ended June 30, 2017. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Library's financial statements which follow this narrative.

## Financial Highlights

- The assets and deferred outflows of resources of the Kansas City Public Library exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$47,298,065 (net position).
- As of the close of the current fiscal year, the Kansas City Public Library's governmental funds reported combined ending fund balances of \$17,687,082 an increase of \$1,754,322 in comparison with the prior year. The increase is primarily the result of a major contribution of \$1,000,000 received by the Library. An endowment fund was created with the contribution.
- Approximately 47.5% of the total fund balance, or \$8,394,448, is unassigned and available for spending at the Library's discretion (unassigned fund balance).
- At the end of the current fiscal year, the General Fund unassigned fund balance of \$8,394,448 was 44.7% of total general fund expenditures for the fiscal year.
- The Kansas City Public Library's total liabilities decreased by \$794,810 during the current fiscal year primarily as a result of annual lease payments on outstanding long-term debt and a reduction in the value of accrued compensated absences and benefits payable.

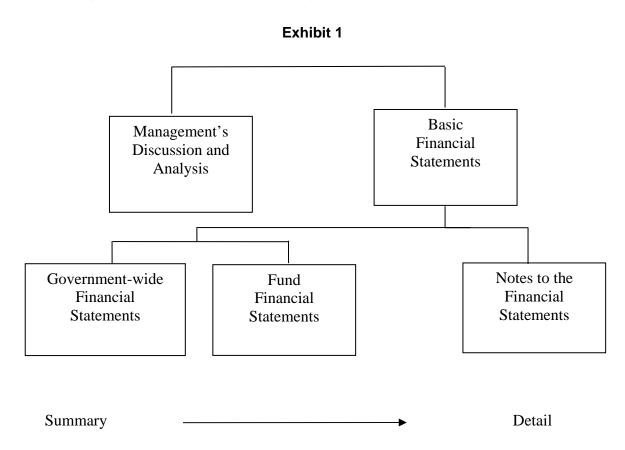

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Kansas City Public Library's basic financial statements. The Library's basic financial statements consist of three components:

1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements (see *Exhibit 1*). The basic financial statements present two different views of the Library through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains required supplementary information and other supplemental information that will enhance the reader's understanding of the financial condition of the Kansas City Public Library.

# Management's Discussion and Analysis June 30, 2017

## Required Components of Annual Financial Report

## **Basic Financial Statements**

The first two statements in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the Library's financial status.

The next statements are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the Library's government. These statements provide more detail than the government-wide statements. There are three parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; and 3) the proprietary fund statements.

The next section of the basic financial statements is the **Notes**. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **Required Supplementary Information** and **Supplementary Information** are provided to show details about pension information and the Library's individual funds. Budgetary information required by the General Statutes also can be found in this part of the statements.

# Management's Discussion and Analysis June 30, 2017

#### Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Library's finances, similar in format to a financial statement of a private-sector business. The government-wide financial statements provide short- and long-term information about the Library's financial status as a whole.

- 1. The statement of net position represents information on all the Library's assets, liabilities and deferred inflows and outflows of resources, with the residual being reported as net position. Measuring net position is one way to gauge the Library's financial condition.
- 2. The statement of activities presents information showing how the Library's net position changed during the year. This statement includes all of the Library's revenues and expenses, regardless of when the cash is received or paid.

The government-wide financial statements are Exhibits 2 and 3 of this report.

#### Fund Financial Statements

The fund financial statements provide a more detailed look at the Library's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Kansas City Public Library, like other governmental entities in Missouri, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Library's budget ordinance. All of the funds of the Kansas City Public Library can be divided into two categories: governmental funds and proprietary funds.

1. Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Library's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting*, which provides a short-term spending focus. As a result, the governmental fund financial statements provide a detailed short-term view that helps the reader determine if there are more or fewer financial resources available to finance the Library's programs. The relationship between government activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

An annual budget is prepared in accordance with Missouri state statutes for estimated revenues within the General Fund, itemized by source, and for proposed expenditures for each department and branch, itemized by object and activity. Annual budgets are also adopted for total revenues and expenditures (excluding itemizations by object and activity) of the individual Special Revenue Funds. All budgets are prepared on the modified accrual basis of accounting. The budgetary statements are provided for the general and major special revenue funds.

# Management's Discussion and Analysis June 30, 2017

Funds demonstrate how well the Library succeeded in providing the services planned when the budget was adopted. The budgetary comparison statements use the budgetary basis of accounting and are presented using the same format, language and classifications as the legal budget document. The statement presents four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations and changes in fund balance; and 4) the variance between the final budget and the actual resources and charges.

2. **Proprietary Funds** – The Kansas City Public Library maintains one proprietary fund, an enterprise fund, which is used to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail. The Library uses its enterprise fund to account for the operation of the Library's parking garage, which is used by both Library patrons and other customers.

#### Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report includes certain supplementary information concerning the Kansas City Public Library's other budgeted funds and the Library's pension information.

# Management's Discussion and Analysis June 30, 2017

## Kansas City Public Library's Net Position Exhibit 2

Total net position	\$ 42,585,062	\$ 42,763,416	\$ (178,354)					
	Bus	siness-type Activ						
	2047	2016	Increase					
	2017	2016	(Decrease)					
Other assets	\$ 447,765	\$ 394,346	\$ 53,419					
Capital assets	4,265,238	4,267,311	(2,073)					
Total assets	4,713,003	4,661,657	51,346					
Net position								
Net investment in capital assets	4,265,238	4,267,311	(2,073)					
Unrestricted	447,765	394,346	53,419					
Total net position	\$ 4,713,003	\$ 4,661,657	\$ 51,346					

# Management's Discussion and Analysis June 30, 2017

As noted earlier, the net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of resources of the Kansas City Public Library exceeded liabilities and deferred inflows of resources by \$47,298,065 as of June 30, 2017. The Library's net position decreased by \$127,008 for the fiscal year ended June 30, 2017. The largest portion of the net position (82.5%) reflects the Library's net investment in capital assets. The Kansas City Public Library uses these capital assets to provide services to customers; consequently, these assets are not available for future spending. The remaining portion of the Kansas City Public Library's net position is comprised of restricted net position of \$6,103,315 (which consists of the Gifts and Grants, Endowment and Capital Development Funds) and unrestricted net position of \$2,162,667.

## Governmental Activities

Governmental activities decreased the Library's net position by \$178,354. The key element of this net decrease was depreciation of capital assets.

## **Business-type Activities**

Business-type activities reflected an increase to the Kansas City Public Library's net position of \$51,346. The key element of this net increase was increased program revenues.

#### Financial Analysis of the Library's Funds

As noted earlier, the Kansas City Public Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the Kansas City Public Library's governmental funds is to provide information on near-term inflows, outflows and balances of usable resources. Such information is useful in assessing the Kansas City Public Library's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

# Management's Discussion and Analysis June 30, 2017

The General Fund is the primary operating fund of the Kansas City Public Library. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$8,394,448 while total fund balance reached \$10,499,196. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 44.7% of total General Fund expenditures, while total fund balance represents 55.9% of that same amount.

At June 30, 2017, the governmental funds of the Kansas City Public Library reported a combined fund balance of \$17,687,082. The General Fund had an increase primarily due to an overage in expected property tax revenue. The Gifts/Grants Fund had an increase primarily due to the receipt of a \$1,000,000 contribution which was used to create a committed endowment fund.

## General Fund Budgetary Highlights

During the fiscal year, the Library revised the General Fund operating budget. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as grants; and 3) increases in appropriations that become necessary to maintain services.

The following summarizes significant variations between the amounts budgeted and the actual amounts for the General Fund:

- Property Taxes Property tax revenue was more than projected.
- State and Federal Funds Federal grant funding (E-Rate) was less than projected due to a change
  in services and equipment requested. This lower than expected revenue is partially offset by lower
  operating and capital expenditures.
- General Operating and Debt Service General Operating expenditures were lower than projected which is offset by Debt Service Principal retirement expenditures which were more than projected due to the budget placement for lease payments on long-term debt.
- **Transfers** Transfer budget variances are due to the categorization for refunding of long-term debt.

Overall, the General Fund's actual expenditures were \$18,795,715 or 98.99% of the total budgeted expenditures of \$18,987,266.

## Capital Assets

The Kansas City Public Library's investment in capital assets for its governmental and business-type activities as of June 30, 2017, totals \$53,230,157 (net of accumulated depreciation). These assets include buildings, land, furniture and equipment and the library collection.

Major capital asset transactions during the year include the following:

• Library materials' addition of \$1,879,522 and reduction of \$2,631,442.

# Management's Discussion and Analysis June 30, 2017

- Library material management and tracking system (RFID radio frequency identification) totaling \$534,169.
- Computer upgrades and replacements totaling \$463,718.

	\$	4,265,238	\$	4,267,311	\$	(2,073)

Additional information on the Library's capital assets can be found in Note 4 of the basic financial statements.

#### Long-term Liabilities

As of June 30, 2017, the Kansas City Public Library had total long-term liabilities of \$4,504,286. Of this, \$3,595,000 is for an outstanding lease payable, and \$588,951 is for the employees' compensated absences and benefits. The remainder is the Library's contribution to the employees' retirement fund.

Additional information regarding the Kansas City Public Library's long-term liabilities can be found in Note 7 of this report.

# Management's Discussion and Analysis June 30, 2017

## **Economic Factors and Next Year's Budgets**

#### Governmental Activities

A General Fund Operating Budget of \$19,320,481 for fiscal year 2017-2018 will be proposed, which is \$333,218 or 1.8% more than the previous year. The increase is primarily attributable to a slight increase in salary and fringe benefits and building operation and maintenance. Property tax revenue projections remain essentially the same as the previous year and the Library continues to hold approximately 15 vacant positions open to maintain a balanced budget. The Library continues to benefit from temporary grant revenue streams, which support programming activities for the next year.

## **Business-type Activities**

The proposed operating budget for the Library Parking Garage for fiscal year 2017–2018 will be \$470,000, which is \$40,000 more than the previous year. Revenues are expected to increase from the previous year and expenditures were adjusted based on prior year experience. Capital expenditures are increased to allow for additional capital projects and major maintenance. The Library Parking Garage was acquired in May 2008.

#### Requests for Information

This report is designed to provide an overview of the Library's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Chief Financial Officer, Kansas City Public Library, 14 West 10th Street, Kansas City, Missouri 64105.

# Statement of Revenues, Expenditures and Changes in Fund Balance Governmental Funds (Continued) For the Year Ended June 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances – total governmental funds	\$	1,754,322
Governmental funds report capital outlays as expenditures;		
however, in the statement of activities, the costs of those assets		
are allocated over their estimated useful lives and reported as		
depreciation expense:		
Capital outlay and library material costs in excess of		
capitalization threshold		2,983,956
Depreciation Depreciation		(4,048,209)
Gain on capital disposal		10,203
Revenues in the statement of activities that do not		,
provide current financial resources are not reported as		
revenues in the funds:		
Change in deferred inflows of resources		(497,154)
Amortization of unearned rent		121,941
Interest subsidy on bond		(4,585)
•		(4,505)
The issuance of debt provides current financial resources to		
governmental funds, while the repayment of the principal and		
long-term debt consumes the current financial resources of		
governmental funds. Also, governmental funds report the		
effect of premiums, discounts and similar items when debt		
is first issued, whereas these amounts are deferred and amortized		
in the statement of activities. In the statement of activities,		
interest is accrued on outstanding bonds, whereas in the		
governmental funds, an interest expenditure is reported when		
due. The following is the detail of the net effect of these		
differences in the treatment of long-term debt and related items:		415,000
Repayment of principal on debt		415,000 (4,480,000)
Proceeds from lease purchase agreement  Defeasance of debt refunding		4,425,000
Interest and amortization of discount		(15,097)
		(6,067)
Amortization of bond insurance premium  Some expenses reported in the statement of activities do not		(0,007)
require the use of current financial resources and, therefore,		
are not reported as expenditures in governmental funds:		
Change in unmatured compensated absences payable		136,679
Change in long-term retirement system contribution payable		2,378
Change in net pension liability		85,096
Change in pension deferred outflows/inflows		(1,061,817)
	Φ.	
Change in net position of governmental activities	\$	(178,354)

# Notes to Basic Financial Statements June 30, 2017

## Note 1: Organization and Summary of Significant Accounting Policies

## Reporting Entity

Pursuant to enacted legislation and approval of voters, the Kansas City Public Library (the Library) was established as a separate and distinct political subdivision of the State of Missouri as of November 29, 1988. Prior to that time, the Library was accounted for as a fund of The School District of Kansas City, Missouri (the District). In accordance with the state statute creating the separate library district, the Library is governed by a nine-member Board of Trustees, initially appointed by the Board of Directors of the District. Successor trustees are appointed by the mayors of the cities served by the Library. At the time of separation, the Library was entitled to levy property taxes to fund operations at the same rate in effect prior to November 29, 1988. In 1996, the voters of the Kansas City Public Library District approved an increase in the Library's levy to the current rate.

#### **Blended Component Unit**

Kansas City Library Building Corporation is governed by a three-member self-perpetuating Board of Directors initially named in the Articles of Incorporation, and otherwise, appointed by the Board of Trustees of the Library. Although it is legally separate from the Library, Kansas City Library Building Corporation is reported as if it were part of the primary government because its sole function is providing for the acquisition, construction, improvement, extension, repair, remodeling, renovation and financing of public library sites, buildings, structures, facilities, furnishings and equipment for the benefit or use of the Library. The activities of Kansas City Library Building Corporation are included in the accompanying financial statements as part of the non-major governmental funds. Kansas City Library Building Corporation does not have separately issued financial statements.

#### **Discretely Presented Component Unit**

The *Kansas City Public Library Foundation, Inc.* (the Foundation) is a legally separate, tax-exempt component unit of the Library. The Foundation's primary function is to raise and hold funds for the Greater Kansas City Community Foundation (GKCCF) in its support of the Library and its programs.

Although the Library does not control the timing or amount of receipts from the Foundation, the majority of the Foundation's resources and related income are designated by donors for the benefit of the Library. Because these designated resources held by the Foundation can only be used by, or for the benefit of, the Library, the Foundation is considered a component unit of the Library and is discretely presented in the Library's financial statements.

During the year ended June 30, 2017, the Foundation provided support to the Library in the amount of \$2,600.

# Notes to Basic Financial Statements June 30, 2017

The Foundation is a private nonprofit organization that reports under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's statements in the Library's financial reporting entity for these differences.

#### Basis of Presentation

The Library's financial statements include both government-wide (reporting the Library and discretely presented component units as a whole) and the Library's fund financial statements (reporting the Library's major funds).

#### Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Library, the primary government, as a whole, including the discretely presented component unit. These statements distinguish between the *governmental* and *business-type activities*. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The government-wide statement of activities presents a comparison between expenses and program revenues for each program of the governmental activities. Expenses are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the Library.

The Library's net position is reported in three parts—net investment in capital assets; restricted net position; and unrestricted net position. The Library first utilizes restricted resources to finance restricted activities.

The government-wide focus is more on the sustainability of the Library as an entity and the change in the Library's net position resulting from the current year's activities.

#### Fund Financial Statements

Fund financial statements report detailed information about the Library. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

The major governmental funds of the Library are described below:

# Notes to Basic Financial Statements June 30, 2017

#### General Fund

The General Fund is the primary operating fund of the Library. It accounts for all financial resources of the general government, except those required to be accounted for in a different fund.

#### **Endowment Fund**

The Endowment Fund is a permanent fund that accounts for assets held by the Library as a legal trustee in situations requiring that the principal be preserved intact and only the income from these assets be expended on behalf of the Library as designated by the Board of Trustees or the donor.

#### Gifts/Grants Fund

The Gifts/Grants Fund is a special revenue fund that accounts for the funds received from grants or donors with restrictions on the expenditure for specified purposes, excluding capital development.

## **Proprietary Fund Financial Statements**

#### Parking Garage Fund

The Parking Garage Fund is used to account for the principal operations of the parking garage. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### Measurement Focus and Basis of Accounting

## **Government-wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Library gives (or receives) value without directly receiving (or giving) equal value in exchange, can include certain grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. This approach differs from the manner in which governmental fund financial statements are prepared. Therefore, the governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund financial statements.

#### Governmental Fund Financial Statements

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

# Notes to Basic Financial Statements June 30, 2017

#### Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, certain revenue sources are deemed both measurable and available (collectible within two months of year-end and available to pay obligations of the current period). This includes investment earnings and certain operating grants. Reimbursements due for federally funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

#### **Expenditure Recognition**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

#### **Proprietary Fund Financial Statements**

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource measurement focus concerns determining costs as a means of maintaining the capital investment and management control. Their revenues are recognized when they are earned and their expenses are recognized when they are incurred. Allocations of costs, such as depreciation, are recorded in proprietary funds.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's ongoing operations. The principal operation of the Library's proprietary fund is the operation of the Library's parking garage which results in charges for services to both Library patrons and other customers. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the Library has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

#### **Budgets**

An annual budget is prepared in accordance with Missouri state statutes for estimated revenues within the General Fund, itemized by source, and for proposed expenditures for each department and branch, itemized by object and activity. Annual budgets are also adopted for total revenues and expenditures (excluding itemizations of details) of the individual Special Revenue Funds. All budgets are prepared on the modified accrual basis of accounting. The budgetary statements and schedules presented in this report are based on GAAP, which is considered to be the budgetary basis of accounting.

On or before the 31<sup>st</sup> day of August of each year, the Board of Trustees adopts a final budget for the year and fixes the ad valorem property tax rates to produce the revenue required to meet the amounts contained in the budget.

# Notes to Basic Financial Statements June 30, 2017

The annual budget is officially adopted by a majority vote of the Board of Trustees in summary format for the General Fund and in total for the Special Revenue Funds. The Library Director has the authority to amend the budget summary by interline budget transfers of \$10,000 or less for the year. Programmatic modifications of any amount may be made by the Library Director as long as they have no impact on the budget summary. Budgetary amendments in excess of \$10,000 require formal approval of the Board of Trustees.

State statutes provide that proposed expenditures from any individual fund shall not exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year.

## Cost-Sharing Defined Benefit Pension Plan

The Library participates in a cost-sharing multiple-employer defined benefit pension plan, Public School Retirement System of the School District of Kansas City, Missouri (the Plan). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Deposits, Investments and Investment Income

State statutes authorize the Library to invest in open-time deposits; certificates of deposit; bonds of the state of Missouri, of the United States or of any wholly owned corporation of the United States; or in other short-term obligations of the United States.

In accordance with state statutes and Library policy, the Library invests its idle cash in repurchase agreements collateralized by U.S. Treasury securities or federal agency discount notes with maturities of generally less than three months. Securities underlying a repurchase agreement must have a market value of at least 100% of the cost of the repurchase agreement. Securities underlying repurchase agreements are held as collateral at the Federal Reserve Bank.

Collateral is required by state statutes for demand deposits. The fair value of the collateral must equal 100% of deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are governed by state statute and include U.S. government and government agency bonds and securities; general obligation bonds of any of the 50 states; general obligation bonds of any Missouri county, certain cities and special districts; and revenue bonds of certain Missouri agencies. Obligations pledged to secure deposits are delivered to the bank's account at the Federal Reserve Bank.

At June 30, 2017, the balance sheet category "Deposits and Investments" consisted of demand deposits, certificates of deposit, federal agency securities, money market funds and repurchase agreements. Such balances are stated at fair value, which approximates cost.

Investment income consists of interest and dividend income and the net change for the year in the fair value of investments carried at fair value.

# Notes to Basic Financial Statements June 30, 2017

## **Property Taxes**

Property taxes are levied by the County Assessor based on the assessed valuation of taxable property as of the preceding January 1. Taxes are due and payable by November 1 following the levy date and become delinquent after December 31, after which the Library may attach a lien to all property on which taxes are unpaid. The County Collector is responsible for the collection and distribution of property taxes. For this service, the county retains 1.6% of collections. The tax levy assessed for 2016 was \$.494 per \$100 of assessed valuation and supports general Library operations.

Property taxes receivable has been reported net of an allowance for uncollectible taxes totaling \$976,686 for levies in 2012 through 2016. All uncollected taxes related to 2011 and prior have been written off.

## Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated acquisition value on the date donated. Capital assets are not included in the governmental fund financial statements, but are included in the governmental activities in the statement of net position. Capital assets are defined as items such as land, buildings and equipment as well as infrastructure assets as a result of implementing GASB 34. The management of the Library has determined, however, that it has no infrastructure assets.

The Library's policy is to capitalize items that individually cost more than \$5,000, except for computer equipment and library materials, which are typically purchased in groups and are capitalized on that basis.

The Library collection assets (books, media, etc.) acquired for general governmental purposes are reported as library material expenditures in the fund that finances the asset acquisition and are capitalized in the government-wide statements at cost (or estimated historical cost). The Library follows the policy of recording Library collection retirements at the average cost per category of all remaining items prior to recording the current year additions and retirements.

Capital assets of the Library are depreciated using the straight-line method over the following estimated useful lives:

Asset Type	Estimated Useful Life In Years
Buildings and improvements	37
Equipment, furniture, fixtures and vehicles	7
Library collection	7
Computer equipment	5

# Notes to Basic Financial Statements June 30, 2017

#### Unearned Revenue

The Library reports unearned revenue on its governmental funds balance sheet. Unearned revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the Library before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the Library has a legal claim to the resources, the liability for unearned revenue is removed from the governmental funds balance sheet and revenue is recognized.

#### Insurance

The Library is insured by private carriers for property damage, personal injury and public official liability. The Library has a blanket fidelity policy for all employees.

Judgments and claims in excess of policy limits are recorded when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. There have been no judgments or claims in excess of policy limits for the past four fiscal years. Additionally, there were no significant reductions in coverage from prior years.

The Library provides medical, dental, life, long-term disability and workers' compensation insurance coverage for employees through private insurance carriers.

## **Net Position Classifications**

As noted previously, in the government-wide statements, net position is classified and displayed in three components:

- a. Net investment in capital assets Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of deferred rent and any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

#### Fund Balance - Governmental Funds

The fund balances for the Library's governmental funds are displayed in five components:

**Nonspendable** – amounts that are not in a spendable form or are required to be maintained intact.

**Restricted** – amounts that can be spent only for the specific purposes stipulated by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

# Notes to Basic Financial Statements June 30, 2017

**Committed** – amounts that can be used only for the specific purposes determined by approval of the Board of Trustees. Commitments may be changed or lifted only by the Library taking the same formal action that imposed the constraint originally.

**Assigned** – amounts intended to be used by the Library for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

**Unassigned** – the residual classification for the general fund and includes all amounts not contained in the other classifications.

The Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

## Compensated Absences

All full-time, nonprofessional Library employees earn annual vacation leave at the rate of three weeks for one to five years of service and four weeks for more than five years of service. All full-time, professional personnel earn annual vacation leave of four weeks. Employees are subject to maximum vacation carryover of 320 hours. Earned benefits are payable upon termination or retirement.

Full-time Library employees accumulate sick leave at the rate of one day per month, floating holidays at the rate of four days per year and personal business days at the rate of 2.5 days per year. Employees vest in accumulated sick leave at a rate of 3% per year, while floating holidays and personal business days accumulate to a combined maximum of 6.5 days. Beginning July 1, 2012, all new employees are subject to maximum sick leave carryover of 900 hours. To the extent vested, sick leave benefits, unused floating holidays and personal business days are payable upon termination. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 16, all employer-related costs of vacation and sick leave are accrued and recorded when earned. The estimated liability for compensated absences has been assigned by management to be liquidated with expendable available financial resources and is shown as an assigned fund balance in the General Fund. The long-term liability for compensated absences has been recorded in the government-wide financial statements.

### Grants

Reimbursement-type grants are recorded as intergovernmental receivables and revenue when the related expenditures are incurred.

# Notes to Basic Financial Statements June 30, 2017

#### Inter-fund Activity

During the course of normal operations, the Library transfers funds to provide services and construct assets. The accompanying financial statements generally reflect such activity as transfers. For the purpose of the statement of activities, any inter-fund activity between Governmental Funds has been eliminated.

#### Statement of Cash Flows

For purposes of the statement of cash flows for proprietary funds, cash and cash equivalents are defined as cash on hand, cash in demand accounts and repurchase agreements with maturities of three months or less when purchased.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Note 2: Deposits and Investments

At June 30, 2017, the carrying values of deposits and investments, which approximate cost, are summarized as follows:

Deposits and investments	
Deposits	\$ (123,309)
Certificates of deposit	4,655,000
Repurchase agreement	10,718,000
GKCCF pooled investments	1,023,502
Federal agency securities	2,995,950
Total	\$ 19,269,143

The carrying value of deposits and investments are included in the financial statements as follows:

Primary government	
Deposits and investments	\$ 13,220,357
Restricted deposits and investments	6,048,786
-	
Total	\$ 19,269,143

# Notes to Basic Financial Statements June 30, 2017

#### Credit Risk

The credit risk for investments is the possibility that the issuer/counterparty to an investment will be unable to fulfill its obligations. Presented below is the actual rating by Moody's Investor Service as of year-end for each investment type:

Investment Type	Fair Value	Rating as of June 30, 2017
Repurchase agreement Federal agency securities	\$ 10,718,000 2,995,950	(Unrated) Aaa
Total	\$ 13,713,950	

#### **Custodial Credit Risk**

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Library will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Library will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The Library's policy is to collateralize the demand deposits and repurchase agreements with securities held by the financial institution's agent and in the Library's name. Because security investments were held by the financial institution and in the Library's name, none of the Library's deposits or investments was exposed to custodial credit risk as of June 30, 2017.

#### Interest Rate Risk

The Library's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Library has elected to use the segmented time distribution method of disclosure for its interest rate risk.

As of June 30, 2017, the Library had the following investments and original maturities:

		Investment Maturities (in Years)					
Investment Type	Total Fair Value	Less Than 1	1 - 5				
investment Type	I all value	IIIaii i	1-3				
Repurchase agreement Federal agency securities	\$ 10,718,000 2,995,950	\$ 10,718,000	\$ - 2,995,950				
Total	\$ 13,713,950	\$ 10,718,000	\$ 2,995,950				

# Notes to Basic Financial Statements June 30, 2017

#### **Concentration of Credit Risk**

As of June 30, 2017, investments, subject to credit risk categorization, in any one issuer that represent 5% or more of total Library's investments, are as follows:

Issuer	Investment Type	Fa	Total ir Value
Federal Home Loan Bank Federal National Mortgage Association GKCCF Pooled Investments UMB Bank, n.a.	U.S. Agency Obligations U.S. Agency Obligations External investment pool Repurchase Agreement	\$ 1,496,376 1,499,586 1,023,500 10,718,000 \$ 14,737,45	
Investment Income		Ψ 1	4,737,432
Investment income for year ended June 30, 201	7 consisted of:		
Interest and dividend income Net increase in fair value of investments		\$	144,059 1,287
		\$	145,346

#### Note 3: Contributions Receivable

Contributions receivable reported on the government-wide statement of net position at June 30, 2017 consisted of unconditional promises to give:

Due less than one year	\$	107,000
------------------------	----	---------

# Notes to Basic Financial Statements June 30, 2017

## Note 4: Capital Assets

# Notes to Basic Financial Statements June 30, 2017

#### Note 5: Employee Retirement Plan

#### General

The Library participates in the Public School Retirement System of the School District of Kansas City, Missouri (the Retirement System), a cost-sharing, multiple-employer public employee retirement system. The Retirement System is a defined benefit pension plan covering substantially all full-time employees of the District and the Library. All full-time permanent employees become members of the Retirement System as a condition of their employment. The Public School Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: Public School Retirement System, 324 East 11th Street, Suite 100, Kansas City, Missouri 64106, calling (816) 472-5800 or by visiting their website at www.kcprs.org.

The Retirement System was established by the General Assembly of the State of Missouri. The Board of Trustees of the Retirement System administer and operate the Plan in accordance with the statutes of the State of Missouri. The Retirement System has three plans in which its members participate: Plan A for members hired before 1961, Plan B for members hired after 1961 and Plan C for members hired on or after January 1, 2014. All current Library employees are members of Plans B and C. Certain significant provisions of Plans B and C are described below.

#### Pension Benefits

Plan B and Plan C members, who attain a total of at least 75 and 80 credits, are entitled to the annual service retirement allowance, equal to 2% and 1.75% (1.75% if before June 30, 1999), respectively, of the average final compensation multiplied by years of creditable service, subject to a maximum of 60% of average final compensation. One credit is equal to each year of creditable service and each year of age with both years of creditable service and years of age prorated for fractional years. A year of creditable service is defined as a minimum of 25 hours per week for nine calendar months.

Early retirement is permitted and members may retire under the age of 50 with 30 years of service; however, benefits are actuarially reduced by each month of retirement before age 60 and 62 for Plan B and Plan C members, respectively. If members terminate before rendering five years of service or take a lump-sum distribution, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the employer's contribution. Members may elect to receive the value of their accumulated contributions plus interest as a lump-sum distribution upon retirement or termination or they may elect to receive their accumulated plan benefits in various optional forms of annuities payable monthly from retirement.

Missouri state legislation, effective October 1981, provided for an increase in monthly benefits to retirees age 75 or older who have been retired for at least five years. Annually, the Board of Trustees of the Retirement System shall determine if the investment return, as determined by the actuary, is sufficient to permit a benefit increase.

# Notes to Basic Financial Statements June 30, 2017

#### Pension Benefit Adjustments

The Board of Trustees shall determine annually whether or not the Retirement System can provide an increase in benefits for those retirees who, as of January 1 preceding the date of such increase, have been retired at least one year. Any increase also applies to optional retirement allowances paid to a retiree's beneficiary. Before any increases are made, the following requirements must be satisfied:

- 1. The Retirement System funded ratio as of January 1<sup>st</sup> of the preceding year of the proposed increase must be at least 100% after adjusting for the effect of the proposed increase. The funded ratio is the ratio of assets to the pension benefit obligation.
- 2. The actuarially required contribution rate, after adjusting for the effect of the proposed increase, may not exceed the statutory contribution rate.
- 3. The actuary must certify that the proposed increase will not impair the actuarial soundness of the Retirement System.

In accordance with the Benefit Increase Adjustment Policy, if an increase is permissible, the amount of the increase will be equal to the lessor of 3% or the percentage increase in the CPI for the preceding year.

#### Death and Disability Benefits

If an active member dies after becoming eligible for retirement, the designated beneficiary may elect to receive a certain portion of the member's service retirement allowance. Active members with five or more years of service who become totally disabled receive a disability retirement allowance equal to the service retirement allowance they have normally accumulated at the time they become disabled, but not less than the minimum disability retirement allowance. The minimum disability retirement allowance shall be the lesser of:

- 1. 25% of the member's average final compensation; or
- 2. The member's service retirement benefits.

#### Contributions Required and Contributions Made

The Missouri Revised Statues 169.350.4 and 169.291.16 specify that for calendar year 2014 and each subsequent year, the employee contribution rate and the employer contribution rate shall be the same percentage of compensation, each not less than 7.5% of compensation and not more than 9% of compensation. Within this permitted range, the rate may be changed (increased or decreased) in increments of 0.5% each year. The objective is that the combined employee and employer contribution will be the amount actuarially required to cover the normal cost and amortize the unfunded accrued actuarial liability over a period that does not exceed 30 years from the date of the valuation. The rate for each calendar year shall be certified by the Board of Trustees to the employers at least six months prior to the date such rate is to be effective.

# Notes to Basic Financial Statements June 30, 2017

As of January 1, 2017 and January 1, 2016, members in Plans B and C are required to contribute 9.0% of earnable annual compensation, respectively. The Library's contribution for the calendar year ended December 31, 2015 was paid by the Library in December 2016 at a rate of 8.5% of members' payroll. The contribution for the year ended December 31, 2016 is due and payable by the Library in December 2017 and will be calculated at a rate of 9.0% of members' payroll.

The unfunded contribution for the six months ended June 30, 2017 has been recorded in the government-wide statements.

The Library's contributions to the Retirement System for the calendar year ended December 31, 2016 was \$636,430, equal to the required contribution and was unfunded as of June 30, 2017.

# Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the Library reported a liability of \$10,506,074 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Library's proportion of the net pension liability was based on a projection of the Library's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At December 31, 2016, the Library's proportion was 3.90%, which was a decrease of 0.16% from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the Library recognized pension expense of \$1,610,774. At June 30, 2017, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Oi	Deferred utflows of esources	Deferred Inflows of Resources			
Differences between expected and actual experience Changes of assumptions	\$	116,167 42,898	\$	70,953		
Net difference between projected and actual earning on pension plan investments Changes in proportion and differences between the		2,106,724		-		
Library's contributions and proportionate share of contributions				224,883		
Total	\$	2,265,789	\$	295,836		

# Notes to Basic Financial Statements June 30, 2017

Amounts reported as deferred outflows of resources and deferred inflows of resources at June 30, 2017, related to pensions will be recognized in pension expense as follows:

#### **Year Ending June 30:**

2018 2019 2020 2021	\$ 725,219 674,734 533,914 36,086
	\$ 1,969,953

#### Actuarial Assumptions

The total pension liability in the December 31, 2016 actuarial valuation were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary increases 5.00%, average, including inflation

Investment rate of return 8.00%, net of pension plan investment expense,

including inflation

Mortality rates were based on the RP-2000 Healthy Non-Annuitant projected for 15 years and 7 years from the valuation date for pre-retirement and post-retirement participants, respectively. Mortality rates for disabled participants was based on the RP-2000 Disabled Table for Males and Females.

The actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study for the period 2006 through 2010.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

# Notes to Basic Financial Statements June 30, 2017

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	22.50%	5.30%
Developed Equity	15.00%	5.70%
Emerging Market Equity	10.00%	7.10%
Domestic Fixed Income - Core	10.00%	2.00%
Global Fixed Income	5.00%	1.10%
MACS	7.50%	4.70%
High Yield	2.50%	4.00%
Hedge Funds - Equity Long/Short	4.50%	4.80%
Hedge Fund of Funds	3.00%	3.70%
Private Equity	5.00%	8.70%
Commodities	5.00%	2.80%
Real Estate	10.00%	4.60%
	100.00%	

#### Discount Rate

The discount rate used to measure the total pension liability was 8% for the year ended December 31, 2016. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that participating employer contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the Library's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The Library's proportionate share of the net pension liability has been calculated using a discount rate of 8%. The following presents the Library's proportionate share of the net pension liability calculated using a discount rate 1% higher (9.00%) and 1% lower (7.00%) than the current rate:

				Current			
	19	% Decrease (7.00%)	Di	scount Rate (8.00%)	1% Increase (9.00%)		
Library's proportionate share of the							
net pension liability	\$	13,695,794	\$	10,506,074	\$	7,764,351	

# Notes to Basic Financial Statements June 30, 2017

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Plan financial report.

#### Payable to the Pension Plan

At June 30, 2017, the Library reported a payable of \$636,430 and \$320,335 for the outstanding amount of contributions to the pension plan required for the years ended December 31, 2016 and 2017, respectively.

#### Note 6: Deferred Compensation Plan

The Library offers its employees four deferred compensation plans created in accordance with Internal Revenue Code Sections 457 and 403(b). These plans, available to all Library employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The Library makes no contributions to the plans and reserves the right to amend, cancel or augment the plans. Employee contributions for all plans were \$215,847 for the year ended June 30, 2017. All amounts of compensation deferred under the plan, including income attributed to such amounts, are placed in a trust which is not the property of the Library. Therefore, assets and liabilities related to the deferred compensation plan are not included in the basic financial statements.

# Notes to Basic Financial Statements June 30, 2017

#### Note 7: Long-term Obligations

The following is a summary of long-term obligation transactions for the year ended June 30, 2017:

	Balance June 30, 2016		ļ	additions Reductions		Balance June 30, 2017			Amounts Due Within One Year	
Long-term debt										
Revenue bonds payable										
Series 2009A	\$	1,220,000	\$	-	\$	1,220,000	\$	-	\$	-
Series 2009B		3,205,000		-		3,205,000		-		-
Lease payable		-		4,480,000		415,000		4,065,000		470,000
Total long-term debt		4,425,000		4,480,000		4,840,000		4,065,000		470,000
Other long-term liabilities										
Compensated absences *		1,921,092		849,060		985,739		1,784,413		1,195,462
Retirement system										
contribution payable *		908,762		684,433		636,430		956,765		636,430
Total other long-term liabilities		2,829,854		1,533,493		1,622,169		2,741,178		1,831,892
Total long-term obligations	\$	7,254,854	\$	6,013,493	\$	6,462,169	\$	6,806,178	\$	2,301,892

<sup>\*</sup>Compensated absences and retirement system liabilities are traditionally liquidated in the General Fund.

#### Leasehold Revenue Bonds Refunding

On November 22, 2016, the Library entered into a lease purchase agreement to refund the following:

- Leasehold Revenue Bonds Payable Series 2009A
- Leasehold Revenue Bonds Payable Series 2009B

The total principal amount of the lease purchase agreement received by the Library was \$4,480,000. A total of \$55,000 of this principal was new money to finance remodeling costs of the leased property. The refunded leasehold revenue bonds were refunded to reduce the Library's total debt service payment. On December 1, 2016, \$1,220,000 and \$3,205,000 of the Series 2009A and 2009B, respectively, were called by the bond trustee with respective interest rates ranging from 3.125-4.000% and 5.000%-5.625%, respectively. As a result of these actions, the liability for the leasehold revenue bonds has been removed from the long-term obligation. As a result of the refunding, the Library decreased its total debt service requirements by \$350,550.

# Notes to Basic Financial Statements June 30, 2017

#### Lease Purchase Agreement

The lease purchase agreement with Clayton Holdings, LLC entered into during 2016 in the original amount of \$4,480,000 dated November 22, 2016, which bear interest at 1.920%. The lease payments are payable in semi-annual installments through June 1, 2026. The lease payments are secured by certain personal property, fixtures and leasehold improvements of the Central branch library building and annex building.

The debt service requirements as of June 30, 2017, are as follows:

Year Ending June 30,	Total to be Paid		
2018	\$ 548,048	\$ 470,000	\$ 78,048
2019	544,024	475,000	69,024
2020	544,904	485,000	59,904
2021	550,592	500,000	50,592
2022	545,992	505,000	40,992
2023-2026	1,694,224	1,630,000	64,224
	\$ 4,427,784	\$ 4,065,000	\$ 362,784

#### Note 8: Lease Commitments

The Library currently has annually renewable lease commitments for its Sugar Creek branch location and certain office equipment.

#### Plaza Facility

In March 1999, the Library entered into a lease and development agreement with Plaza Colonnade, LLC for the construction of a library in exchange for the development rights and a 99-year leasehold estate for the remainder of the site located at 4801 Main, Kansas City, Missouri. The previous Library facility at this site has been demolished. An amendment in 2004 terminated the developer's obligation to finish the Plaza library facility in exchange for a \$2,500,000 payment to the Library. The value of the building along with the payment received in consideration to enter the lease agreement was recognized as deferred rental revenue on the balance sheets at the time of occupancy.

The developer has built a multi-floor project on the leased site, which is rented by the developer to other tenants. The Library paid the common area maintenance costs of \$85,000 per year from January 2005 to December 2007 for the new building as required by the latest amendment. Such costs are scheduled to increase 3% each year for the remaining term of the lease from 2008 to 2100, as set forth in the amendment. At the end of the developer's leasehold estate, the land and all improvements will revert to the Library.

# Notes to Basic Financial Statements June 30, 2017

In 2004, the lease and development agreement was amended, which terminated the developer's obligation to furnish certain tenant finish improvements to the Plaza Library facility in exchange for a cash payment of \$2,500,000, which was recognized as a contribution in the fund financial statement in 2005. This payment, along with the value of the cost of construction attributable to the Library's share of the building, which approximated \$9,115,000, was recorded as a contributed capital asset on the government-wide statements. The total value contributed was recorded as deferred rental revenue to recognize the total value of the assets contributed to the Library as an incentive to enter into the original ground lease with the developer. The capital asset for the Library facility is being depreciated over its expected useful life on a straight-line basis in accordance with the Library's depreciation policies. In addition, the deferred rent is being recognized on a straight-line basis over the 99-year term of the ground lease. The Library recognized \$121,941 of deferred rental revenue for the year ended June 30, 2017, in the government-wide statement of activities.

The value of any donations from third parties, with respect to any of the above mentioned facilities, whether in cash or in-kind, as well as any related assets or obligations, were recorded on the Library's books of account when the underlying events occurred that resulted in a benefit to the Library.

Under current leases, the minimum annual rental payments and the common area maintenance costs will be as follows:

Fiscal Year Ending				
June 30,	A	Mount	Ending June 30,	Amount
2018	\$	145,416	2048-2052	\$ 1,494,160
2019		132,094	2053-2057	1,732,143
2020		134,261	2058-2062	2,008,029
2021		134,895	2063-2067	2,327,862
2022		130,499	2068-2072	2,698,633
2023-2027		713,624	2073-2077	3,128,456
2028-2032		827,286	2078-2082	3,626,732
2033-2037		959,047	2083-2087	4,204,371
2038-2042		1,111,796	2088-2092	4,874,016
2043-2047		1,288,877	2093-2097	5,650,323
			2098-2101	4,477,636
			Total	\$ 41,800,156

Total rent expense for the year ended June 30, 2017 was \$153,802.

Notes to Basic Financial Statements
June 30, 2017

#### Note 9: Commitments and Contingencies

The Library receives federal and state financial assistance in the form of grants. Entitlement to these resources generally is contingent upon compliance with terms and conditions of the grant agreements and applicable federal and/or state regulations, including the expenditures of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits by grantors. Any disallowance as a result of these audits becomes a liability of the Library. Based on prior experience, the Library expects such disallowances, if any, will be immaterial.

The Library is a party to certain claims as a result of various matters and complaints arising in the ordinary course of Library activities. The Library's management believes the potential claims against the Library, if any, resulting from such matters would not have a material effect on the financial position of the Library.

#### Note 10: Inter-fund Transfers

Inter-fund transfers made in the year ended June 30, 2017 were as follows:

	Transfers To									
Transfers From	General Fund	En	dowment Fund		Gifts/ Grants Fund		Nonmajor vernmental Fund		Total	
General	\$ -	\$	-	\$	104,536	\$	582,062	\$	686,598	
Endowment Gifts/Grants	2,185 568,390		1,110		18,123 861		225,524		20,308 795,885	
Proprietary Non-major governmental funds	165,000		-		- -		644,185		165,000 644,185	
Total	\$ 735,575	\$	1,110	\$	123,520	\$	1,451,771	\$ 2	2,311,976	

# Notes to Basic Financial Statements June 30, 2017

Transfers from/to other funds consisted of the following:

General Fund to Gifts/Grants Fund for project completion allocation	\$	104,536
General Fund to Debt Service Fund for bond reserve and debt service payments		82,062
General Fund to Capital Development Fund for projects		500,000
Endowment Fund to General Fund for operating activities		2,185
Endowment Fund to Gifts/Grants Fund for operating activities		18,123
Gifts/Grant Fund to General Fund for operating activities		568,390
Debt Service Fund to Capital Development Fund for future capital projects		644,185
Gifts/Grant Fund to Capital Development Fund for projects		225,524
Gifts/Grants to Endowment Fund for operating activities		1,110
Proprietary Funds to General Fund for operating activities		165,000
Other	_	861
	\$	2,311,976

#### **Note 11: Donor Endowments**

During the year ended June 30, 2017, the Endowment Fund experienced \$24,281 of contributions and net appreciation on assets. The amount of net appreciation available for expenditure was \$24,171 at June 30, 2017, and is included in assigned to the endowment fund on the balance sheet. The Library's governing body has interpreted the State of Missouri Prudent Management of Institutional Funds Act as requiring preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. It is the policy of management not to allocate interest earnings on endowments for expenditures until the endowment reaches a balance of \$1,000.

# Notes to Basic Financial Statements June 30, 2017

#### Note 12: Disclosures About Fair Value of Assets and Liabilities

The Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Library has the following recurring fair value measurements as of June 30, 2017:

- Repurchase agreement of \$10,718,000 is valued using quoted market prices (Level 1 inputs)
- Federal agency securities of \$2,995,950 are valued using quoted prices for similar assets, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets (Level 2 inputs)
- Pooled investments held at the Greater Kansas City Community Foundation (GKCCF) of \$1,032,502 are valued using quoted prices for similar assets, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets (Level 2 inputs)

#### Note 13: Tax Abatements

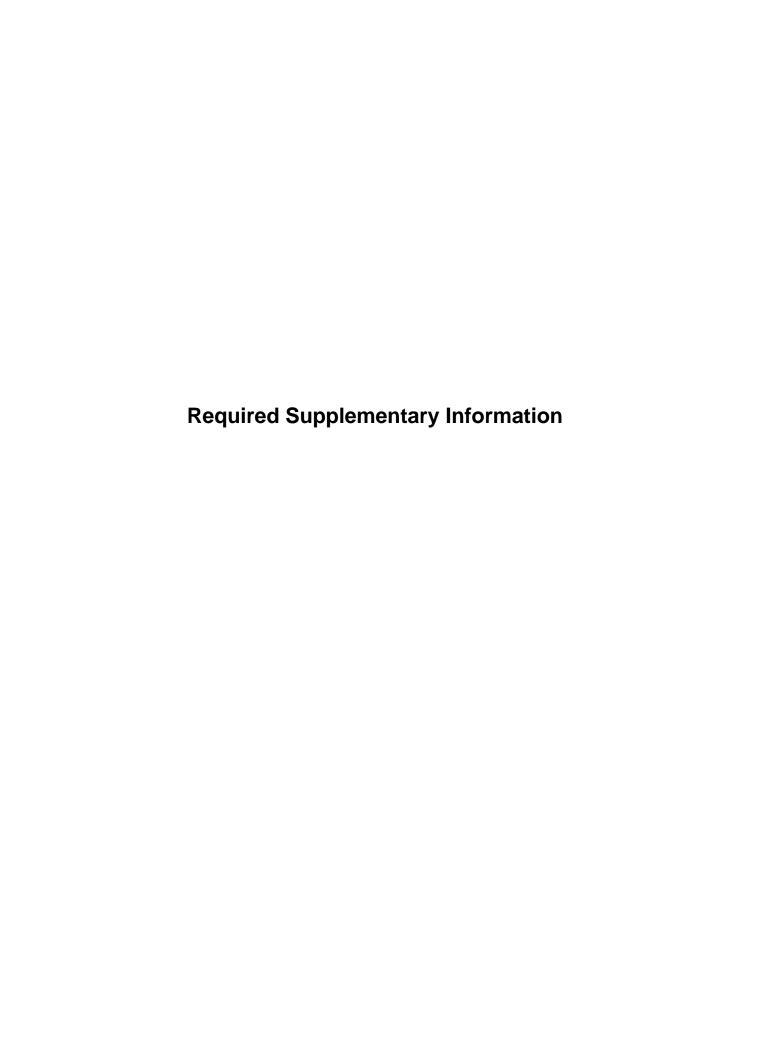

For the fiscal year ended June 30, 2017, the Library's property tax revenue was reduced through abatements and diversions through various incentive granting agencies and entities with an impact to the Library totaling an estimated \$2,560,232 under the following programs:

Tax Abatement Program	Amount of Taxes Abated during the Fiscal Year				
Tax Increment Financing	\$	1,198,772			
Chapter 353 and PIEA Abatement		1,039,046			
Chapter 100 Bonds		184,689			
LCRA		101,014			
EEZ		36,711			
	\$	2,560,232			

# Notes to Basic Financial Statements June 30, 2017

The Library is subject to tax abatements and diversions granted or entered into by other governmental entities through various incentive granting agencies and entities as outlined below:

- Tax Increment Financing Grants tax diversion to promote new investment, infrastructure improvements and job growth by providing financial assistance and incentive to redevelopers. Created pursuant to Section 99.800 of the Revised Statutes of Missouri (RSMo) and City Ordinance 54556.
- Planned Industrial Expansion Authority (PIEA) Grants abatements in the urban core to cure blight and promote quality high density redevelopment. Created pursuant to Sections 100.300 to 100.620 RSMo and City Ordinance 34677.
- Chapter 353 Tax Abatement Grants tax abatement to encourage investment and assist in the removal of blight and blighting conditions within urban redevelopment areas. Created pursuant to Sections 353.010 to 353.190 RSMo and City Ordinance 140306.
- Land Clearance for Redevelopment Authority (LCRA) Grants abatement to encourage investment and assist in the removal of blight and blighting conditions with urban renewal areas. Created pursuant to Sections 99.300 to 99.715 RSMo and City Ordinance 16120.
- Chapter 100 Bonds The City of Kansas City can issue taxable bonds to assist with the
  construction or rehabilitation of eligible commercial facilities. The City takes formal
  ownerships of the business assets and, therefore, provides property (real and personal)
  abatement for up to 10 years. Created pursuant to Sections 100.010 to 100.200 RSMo.
- Port Authority of Kansas City Missouri (PortKC) Reduces taxes to enhance economic vitality as a redevelopment authority through transportation, trade and commerce and riverfront development. Created pursuant to Section 68 RSMo and City Ordinance 47523.
- Enhance Enterprise Zone (EEZ) Grants property tax abatement to encourage job creation and investment by providing tax credits and property tax abatement to new or expanding businesses located in an EEZ. Created pursuant to Sections 135.950 to 135.973 RSMo and City Ordinances 051411, 051412 and 051413.

# Schedule of the Library's Proportionate Share of the Net Pension Liability Public School Retirement System of the School District of Kansas City, Missouri Last Ten Fiscal Years

	2017	2016	2015
Library's proportion of the net pension liability	3.90%	4.06%	4.15%
Library's proportionate share of the net pension liability	\$ 10,506,074	\$ 10,591,170	\$ 7,508,920
Library's covered payroll	7,086,760	6,772,602	6,876,195
Library's proportionate share of the net pension liability as a percentage of its covered payroll	148.25%	156.38%	108.88%
Plan fiduciary net position as a percentage of the total pension liability	70.09%	70.93%	79.44%

**Note to Schedule:** This schedule is intended to show a ten-year trend. Additional years will be reported as they become available.

# Schedule of Library Contributions Public School Retirement System of the School District of Kansas City, Missouri Last Ten Fiscal Years

	2017		2016	2015	
Contractually required contribution	\$	636,430	\$ 587,212	\$	550,376
Contribution in relation to the contractually required contribution		636,430	587,212		550,376
Contribution deficiency (excess)	\$		\$ 	\$	-
Library's covered-employee payroll	\$	7,086,760	\$ 6,772,602	\$	6,895,195
Contributions as a percentage of covered-employee payroll		8.98%	8.67%		7.98%

**Note to Schedule:** This schedule is intended to show a ten-year trend. Additional years will be reported as they become available.

# Notes to Required Supplementary Information June 30, 2017

**Changes of benefit and funding terms:** The following changes to the plan provisions were reflected in the valuation performed as of January 1 listed below:

2016: New early retirement factors were adopted by the Board in June 2015 to update the factors to reflect the current actuarial assumptions.

2015: The Board increased the contribution rate for both members and employees from 8.5% of pay to 9.0% of pay, effective January 1, 2016.

2014: Under legislation passed in 2013, the Board may adjust the member and employer contribution rate each year by no more than 0.50% each. The contribution rate can fluctuate between 7.5% and 9.0%. The Board increased the contribution rate for both members and employers to 8.5% of pay, effective January 1, 2015 and 9.0% of pay, effective January 1, 2016.

In addition, legislation in 2013 created a new set of plan provisions for members hired after December 31, 2013, referred to as Plan C. The key differences between Plan B and Plan C are a lower benefit multiplier (1.75% instead of 2.00%) and different requirements for unreduced benefits (age 62 or Rule of 80 rather than age 60 or Rule of 75). These changes are effective for those hired on or after January 1, 2014.

#### **Changes in actuarial assumptions:**

January 1, 2015 Valuation: Non-disabled mortality tables were updated to reflect an additional year of mortality improvements.

January 1, 2014 Valuation: Non-disabled mortality tables were updated to reflect an additional year of mortality improvements.

# Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

Board of Trustees Kansas City Public Library Kansas City, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the Kansas City Public Library (the Library), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements, and have issued our report thereon dated October 31, 2017.

#### Internal Control Over Financial Reporting

Management of the Library is responsible for establishing and maintaining effective internal control over financial reporting (internal control). In planning and performing our audit of the financial statements, we considered the Library's internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, we do not express an opinion on the effectiveness of the Library's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Library's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Trustees Kansas City Public Library Page 2

#### **Compliance**

As part of obtaining reasonable assurance about whether the Library's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Library's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
